

Rare

In 1962 Lotus created a unique concept in sports car design and development.

The rare combination of style and engineering innovation was destined to make history and was aptly named the Lotus Elan. Twenty five years later Lotus again rewrote the rules in sports car design to introduce a whole new generation of drivers to the exhilaration of the open two-seater sports car. The Elan SE

was a tribute to the car that inspired its development and was a huge success as a stunningly proportioned and superbly agile sports car.

Indeed, it gained international acclaim and achieved one of the world's highest accolades, The Design Council's Award for Excellence. Only 3,855 of these remarkable cars were ever made.

ELAN S2

Limited
Edition

001

For 1994 Lotus is proud to introduce the new Elan S2. A car which retains the qualities of style and performance that gained the Elan world renown and yet has been further refined to improve driving excellence. Styling and specification enhancement are only part of the story. Innovative engineering refinements have further improved the car to make it even more comfortable and responsive.

Only 800 Elan S2's will be produced and each of these will be identified by its own exclusive interior badge. Each Elan S2 owner will also receive

a personalised certificate for their car and all owners names will be placed in a special commemorative register to be kept at Hethel. The chance to own one of these rare and desirable sports cars will never be repeated so only those who are able to respond quickly to this opportunity will be among the few who can appreciate the difference.

Outstanding performance remains a pre-requisite for Lotus. A compact turbocharged 1.6 litre engine with catalyst is at the heart of the Elan S2 which drives the car effortlessly from 0-60mph in 6.7 seconds. It is also capable of an exhilarating 133 mph top speed. Refined power steering, fitted as standard, gives easy access to the cars highly responsive handling capabilities, and improved suspension maximises ride and comfort. The classic sports car appearance is further enhanced by the new larger diameter 5-spoke alloy wheels and its low profile tyres have outstanding road hugging grip in both wet and dry conditions. Two new exciting body colour options join the palette; Medina, a sparkling sea green and Palacio, a shimmering deep purple. And to top it off the hood is now available in dark blue as an alternative to the original black.

New seat trims combine leather and cloth to give a luxurious yet supportive drive. And to ensure all is safe as well as being sound,

the Elan S2 is fitted with an advanced central locking system with remote operable alarm and immobiliser. You have to drive the Elan S2 to fully appreciate the total harmony of man and machine. Sleek styling is a pleasure to the senses. Intensely quick and reassuringly responsive with awe-inspiring road holding, the Elan S2 puts the driver in control. It is an enthralling driving experience.

The Elan S2 is truly a rare treat
SO SPEED IS OF THE ESSENCE

ELAN

TECHNICAL SPECIFICATION

ENGINE:

4 cylinder in-line, turbocharged and intercooled 1.6 litre, 16 valve engine. Water-cooled RHB5 turbocharger. Belt-driven camshafts with direct-acting hydraulic tappets. Electronic multi-point fuel injection. Maximum power: 155bhp (116kW) at 6000rpm (DIN). Maximum torque: 146lb ft (198Nm) at 4200rpm (DIN).

TRANSMISSION:

5-speed transaxle driving the front wheels. Synchromesh on all forward gears.

CHASSIS/BODY:

Rigid steel backbone chassis with full corrosion protection by 'E' coating, chip resistant polyester coating and wax injection into box sections. Multi piece bonded, riveted and bolted composite structure. Steel door beams provide side-impact protection.

FUEL SYSTEM:

Fuel tank capacity: 10.2 gallons (46 litres).
Fuel requirement: 95 RON minimum octane UNLEADED.

FRONT SUSPENSION:

Lotus-patented 'interactive wishbone' system. Unequal length wishbones attach via aluminium alloy subframes providing longitudinal compliance. Coaxial coil springs and dampers, tubular anti-roll bar. Power steering (PAS) fitted as standard.

REAR SUSPENSION:

Independent by wide-based lower wishbone and upper link, with anti-roll bar. Coaxial coil springs and dampers.

BRAKES:

Dual circuit hydraulic, with direct acting vacuum servo. Rear brake pressure compensating valve for each circuit. 10.07" (256mm) dia ventilated front discs. Single cylinder floating calipers. 9.29" (236mm) dia solid rear discs with integral hubs. Single cylinder floating calipers with integral mechanical parking brake.

WHEELS/TYRES:

New 7" x 16" aluminium BBS alloy wheels. Tyres 205/45 R16V.

PERFORMANCE:

Maximum speed: 133mph (214 km/h)
0-60mph: 6.7 seconds (0-100km/h: 7.2 seconds)
0-100mph: 18.6 seconds (0-150km/h: 16 seconds)

UK GOVERNMENT FUEL CONSUMPTION TEST RESULTS:

	Imp mpg	Metric l/100km
URBAN	26.4	10.7
56mph (90km/h)	40.4	7.0
75mph (120km/h)	31.7	8.9

STANDARD EQUIPMENT:

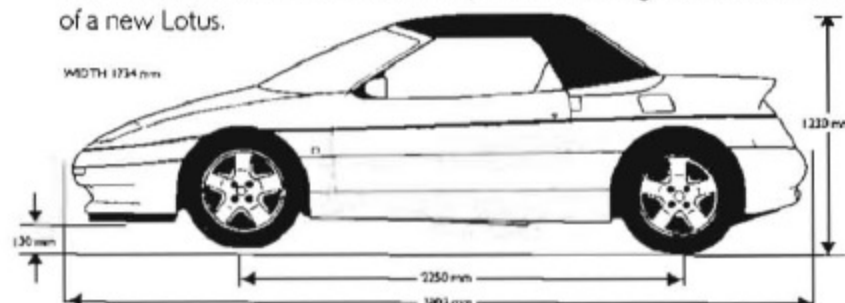

Power steering, catalytic converter, single-key central locking with remote controlled alarm and immobiliser, leather and cloth seat trim, unique interior model number badge, electric windows, tinted glass, adjustable steering column, radio fitting kit, BBS alloy road wheels and electrically adjustable heated door mirrors.

OPTIONAL EQUIPMENT:

Air conditioning, metallic paint, full leather trim options, exclusive tailored carpet mat set, Clarion radio cassette player, Clarion radio cassette player with CD, coloured hood and Nardi steering wheel.

WARRANTY:

The Lotus Elan S2 is covered from new by a 1 year unlimited mileage warranty and an eight year chassis perforation guarantee. Your nearest LOTUS DEALER will be pleased to arrange a demonstration of a new Lotus.
